

In 2005, Pentagon employees wishing to create an event that would commemorate the attack on the Pentagon and honor the lives lost on September 11, 2001, created a new national tradition, the **America Supports You FREEDOM WALK**.

On September 11, 2005, about 15,000 people walked from the Pentagon to the National Mall to pay tribute to those who died – to renew their commitment to freedom and the values of our country and to honor our veterans, past and present.

In 2006, the fifth anniversary of the tragic events of September 11, 2001, volunteers and America Supports You home-front groups organized **FREEDOM WALKS** in every state in the union, including more than 130 cities.

America Supports You FREEDOM WALKS are an opportunity to gather together and remember this significant day and those protecting our freedom.

FREEDOM WALKS are also an excellent tool to use as a history lesson for students.

America Supports You is a Department of Defense program recognizing citizens' support for our military and communicating that support to members of our Armed Forces and their families, at home and abroad.

America Supports You connects citizens and corporations who are looking for ways to support the military with homefront organizations that are devoted to helping the troops and their families, while also providing a location on the Internet at www.AmericaSupportsYou.mil where our military and their families can find hundreds of support organizations eager to help our heroes.
